

STEEL BAR HANDLE PADS

With four integrated steel bar handles, our heavy duty outrigger pads are easy to lift and reposition, whilst providing incredible strength and load distribution. Engineered to withstand extreme pressure with load capacities of up to 300 tonnes, we can guarantee unrivalled support and durability for the toughest lifting application!

- Easy to handle, lift and position around the work site
- Offers protection against water, corrosion and splintering
- Engineered from high performance UHMW Polyethylene

INTEGRATED STEEL BAR HANDLE

Integrated steel bar handles designed to aid lifting, so they can be safely lifted and manoeuvred around the work site.

SAFE & SECURE

Weighing considerably less than steel, and resistant to water, corrosion and splintering...they're built to last!

TOUGH ENOUGH

Engineered to withstand heavy loads transfers, providing maximum strength and support for even the toughest lifting application.

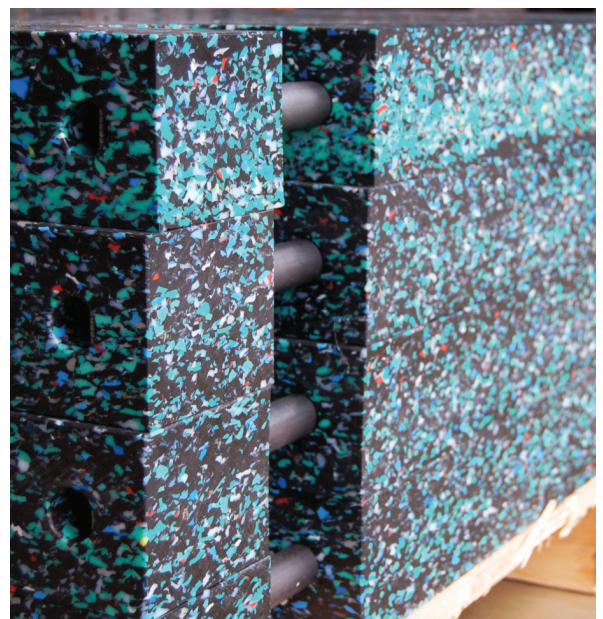

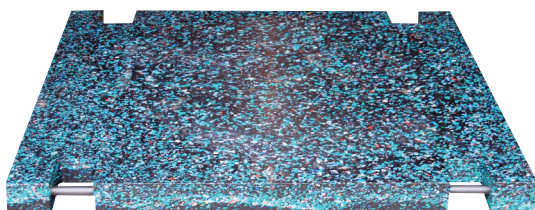

EASY LIFTING

Easy to move, transport and reposition, minimising set-up time and improving onsite productivity.

STEEL BAR HANDLE PADS

DIMENSIONS (MM)	LOAD CAPACITY (TONNES)	WEIGHT (KGS)	PART NO.
1500 x 1500 x 100	200	224	IP-58542
1800 x 1800 x 100	240	320	IP-58541
2000 x 2000 x 100	250	392	IP-59561
3000 x 2000 x 100	300	584	IP-58725
