MULTI MAT SYSTEM GUIDE 1500MM

Manufactured to our premium pad specification our Multi Mat System offers the perfect solution for large scale crane lifting. Excellent durability and rigidity reduces the overall pressure directed at the ground effectively supporting the equipment.

MULTI MAT SET-UP

Stage 1 - Three mats are laid side by side

Stage 2 - Two mats are placed on top at 90 degrees

Stage 3 - A single outrigger pad is placed centrally on the top, securing the multi mat system

MULTI MAT OPTIONS 1500MM

IP-57709

1500x500x50mm

IP-57683

1000x60mm

IP-57685

1200x60mm

Our Multi Mat system recommends a round pad to secure, but a square pad is equally suitable.

Dimensions (mm)	Weight (kgs)	Product Code
1500x500x50	36.00	IP-57709
1000x60 (to secure)	45.00	IP-57683
1200x60 (to secure)	66.40	IP-57685

CONFIGURATION OPTIONS 1500MM

1500x500x50mm

1.50m² Configuration

Requires:
IP-57709 x 2
IP-57683

2.25m² Configuration

Requires:
IP-57709 x 5
IP-57683

3m² Configuration

Requires:
IP-57709 x 7
IP-57685

Please note: Ensure there are no gaps or debris present in the set-up. If in doubt refer to your lift plan.

Please note: Capacity based on complete Multi Mat system. These configurations are calculated for the max ground pressure of 5kgs/cm², for normal operational conditions.
