

# MOTORHOME & CARAVAN PADS

FROM OUTRIGGERPADS

## STACKABLE (Levelling) Pads IP-72062 & IP-72064

### Features include:

- 1.5-3 tonne load capacity
- Stackable motorhome and caravan pads in a handy carry bag
- Lightweight and easy to handle and store with minimal effort
- Ideal for stabilising motorhomes and caravans
- Provides tough and stable support for jack and levelling legs on grass and soft ground
- Made from extremely high quality, high molecular weight polyethylene (HMWP)

### Compression Test

#### Test Objective - Motorhome Pads

To carry our compression test using 140mm diameter pushing block.

#### Test Data - Motorhome Pads

The pads were placed in the compressive machine and the load gradually increased to 15 tonnes. No deformation recorded.

#### Test Objective - Caravan Pads

To carry our compression test using 60mm diameter pushing block.

#### Test Data - Caravan Pads

The pads were placed in the compressive machine and the load gradually increased to 15 tonnes. No deformation recorded.
